Explora Science Center & Children's Museum of Albuquerque

Explora's mission is to create opportunities for inspirational discovery and the joy of lifelong learning through interactive experiences in science, technology, engineering, art, and math.

We meet our mission in partnership with stakeholders throughout our state and by following our core values:

- **Learning:** We advocate for self-directed, hands-on experiential learning as a foundation for innovation, creativity, and critical thinking.
- **Community:** We celebrate the diversity of the community in which we live and grow, and we create environments where all community members are welcomed and valued.
- **Generosity:** We practice and cultivate generosity through listening, respect, and the sharing of time, ideas, and resources.
- **Sustainability:** Organizational health enables us to act boldly for the long-term benefit of Explora, our community, and our partners.
